TREASURER'S REPORT ACCEPTED

FEMA UPDATE:

Mike spoke with Josh Carvajal. Josh told Mike the hydrology study done a few years ago for the Woodcock Road bridge repair is still a sound plan and either poured-in-place concrete or preformed concrete pinned in place would work. Chris Taft told Mike he will rough-out cost figures for both types of bridge work and get the figures to Mike who will then pass them on to FEMA officials. Sandy will update the Grant portal. Josh and Chris did not think an onsite meeting would be necessary as they are both familiar with the Woodcock Bridge. The storm damage work on SE Corner Rd has been completed. Trees were removed, a ditch put in, and good gravel added to cover the existing bank run gravel. Mike will send costs to FEMA.

ZA - GROGAN/TELFORD UPDATE:

Some vehicles have been removed. Hal Wilkins plans to be in the office Wednesday, the 21st to meet with Bill Henry, Arlington Zoning Administrator. The junk car situation will be discussed along with other ongoing zoning matters.

ROAD REPORT:

Over 250' of culvert has been installed on the SE Corner Rd. Bausher's plugged culvert has been fixed on the Woodcock Rd. Work has started on the hairpin turn on the Rupert Road with Better Back Road Grants funding that project. A check for last years' grant for Hamilton Hollow Road was received this week. The new plow for the 2004 International truck will cost \$7,600. The Board will vote on the purchase at the next meeting. Mike will have information at the next meeting about a possible grant funding for debris blowers. Radios for the trucks compatible with AFD will be discussed at the next meeting also.
